Course overview

KPI selection and data gathering are considered by professionals all around the world to be the most challenging aspects in working with KPIs. A way to address these challenges is to build a sound framework to measure KPIs, starting from the moment they are selected, until results are collected to be centralized in performance reports. This training course presents a rigorous KPI Measurement Framework that embeds 10 years of research in the field of key performance indicators and relies on best practices identified in the real business environment.

Participants' profile

› Professionals interested in measuring performance

Professionals from different fields, such as finance, human resources, production, logistics, information technology and others, interested in key performance indicators, will acquire the competencies needed to measure the performance of their team, department or organization.

› Top/middle/lower management professionals

Executives or operational managers, regardless of their field of expertise, will gain the ability and knowledge to measure performance and maximize the value of using KPIs. The tools and resources offered as part of the Certified KPI Professional Training Course enable managers to apply the concepts learned within their organizations, immediately after the course.

› Performance measurement experts

For professionals like Data Analyst, Strategy Manager, Performance Management Officer or Performance Architect, it is important to develop competencies in measuring performance, especially in terms of KPI selection and data gathering. Usually, this particular audience already has a performance measurement system set in place and the Course offers them the opportunity to learn the best practices used in this field and identify how their current processes and approaches regarding KPIs can be improved.

Benefits

- › Support decision making by accessing relevant performance data;
- › Use pre-populated tools to facilitate the implementation of a KPI Measurement Framework in your organization by receiving 10+ templates used in working with KPIs;
- › Access an innovative learning experience based on a 3 stage educational process;
- › Expand your business network by becoming a member of the international Certified KPI Professionals Community.

Learning objectives

- Differentiate between objectives, KPIs and initiatives;
- Understand KPI selection in different contexts;
- Apply best practice techniques to KPI selection;

Learning experience

▪ Pre-course

This part of the learning experience is meant to ensure a smooth transition to the face to face training. Participants are required to take the following steps:

- › **Needs assessment** – complete a questionnaire to determine a tailored and relevant learning experience;
- › **Pre-course evaluation quiz** – take a short quiz to establish the current level of knowledge;
- › **Guidance and schedule** – analyze a document presenting guidelines on how to maximize your learning experience;
- › **Forum introduction** – share an introduction message to present yourself to the other course participants and share your expectations;
- › **Pre-requisite reading** – go through a series of documents to better understand the core-course content;
- › **Expectations** - share your expectations regarding the training course;

● Core course

During the three days of face to face training, the course is designed to facilitate experiential learning and ensure a high level of interactivity. Exercises used to enhance the development of competencies range from simple matching of concepts to extensive analysis of case studies. The learning experience consists in:

- › Applying concepts in practical exercises, analyzing case studies and identifying solutions;
- › Using templates to develop performance measurement instruments;
- › Sharing experiences and best practices and creating a network of KPI Professionals;
- › Constantly evaluating the participants' knowledge, through short quizzes to support the certification exam.

● After-course

The learning process is not finalized when the core-course ends. Participants are required to take the following steps:

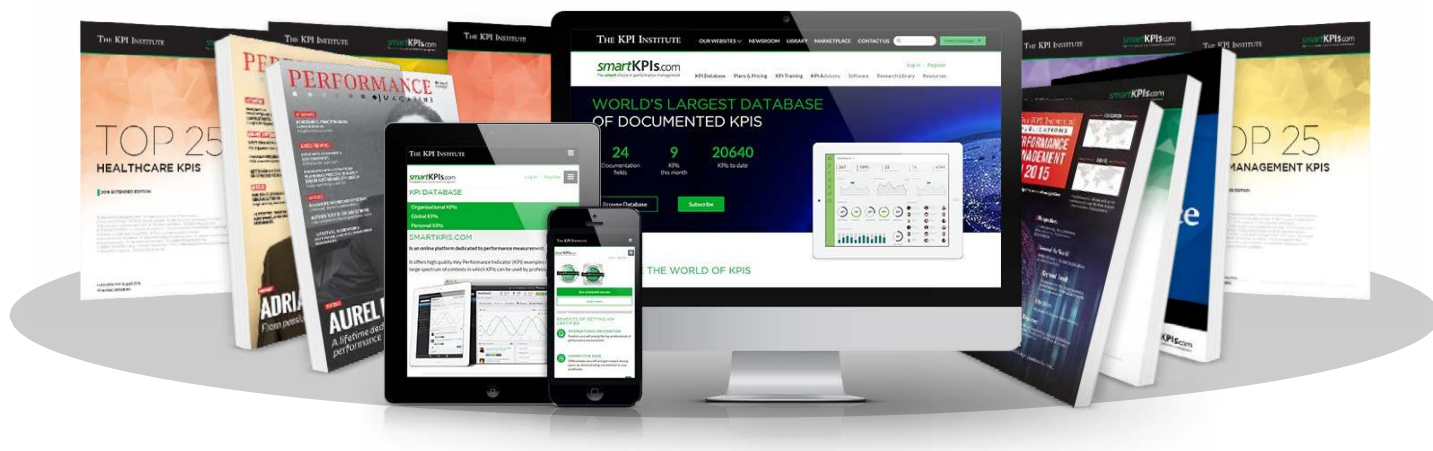

- › **Forum discussions** – initiate a discussion and contribute in a discussion opened by another participant;
- › **Action plan** – create a plan for the actions and initiatives you intend to implement after the training course;
- › **Performance Improvement Essentials** – watch a 45 minutes webinar presenting the KPI measurement as part of a system that ensures performance improvements and achievement of objectives;
- › **In-house presentation** – create and submit a short PowerPoint presentation to present your colleagues the knowledge you have accessed during the training course;
- › **Additional reading** – go through a series of resources to expand your content related knowledge;
- › **Learning journal** – reflect upon your 3 stages learning experience and complete a journal.

▪ Evaluation

The certification process is finalized only when you complete all of the 3 stages of the learning experience. Nonetheless, you will receive a:

- › **Certificate of Attendance** (hard copy): after participating at the 3 days of on-site training course;
- › **Certificate of Completion** (soft copy): after completing pre-course activities and passing the Certification Exam;
- › **Certified KPI Professional diploma** (hard copy): after you have successfully completed all of the 3 stages of the learning experience.

Testimonials

“The KPI Professional Certification course is very well designed and the contents are all you need in order to help you not only to understand KPI's and the Performance Manager role in the organization, but also to design and implement a KPI's system in your company or organization.”

Luis Gargalo
Performance Manager
Refriango, Portugal

“It has been my pleasure to attend the Certified KPI Professional course. It has reshaped my HR strategic approach and narrowed the focus on some data-informed KPIs which helped me to get to organize my work straight away. What has become clear, as I digested the talks, workshops, presentations is that in order to get the people making the difference and creating the real value within a business, you need a “persuasive”, coherent and solid performance management system. This course helped me link the HR strategy with key performance indicators in a constructive way and directed the attention, the energy and resources towards the objectives to be fulfilled”
